

of active customers who made a purchase > \$1.99 between 2/1/07 to 5/31/07

The graph on the left shows the number of active customers who made a purchase with an amount greater than \$1.99 between February 1, 2007 to May 31, 2007.

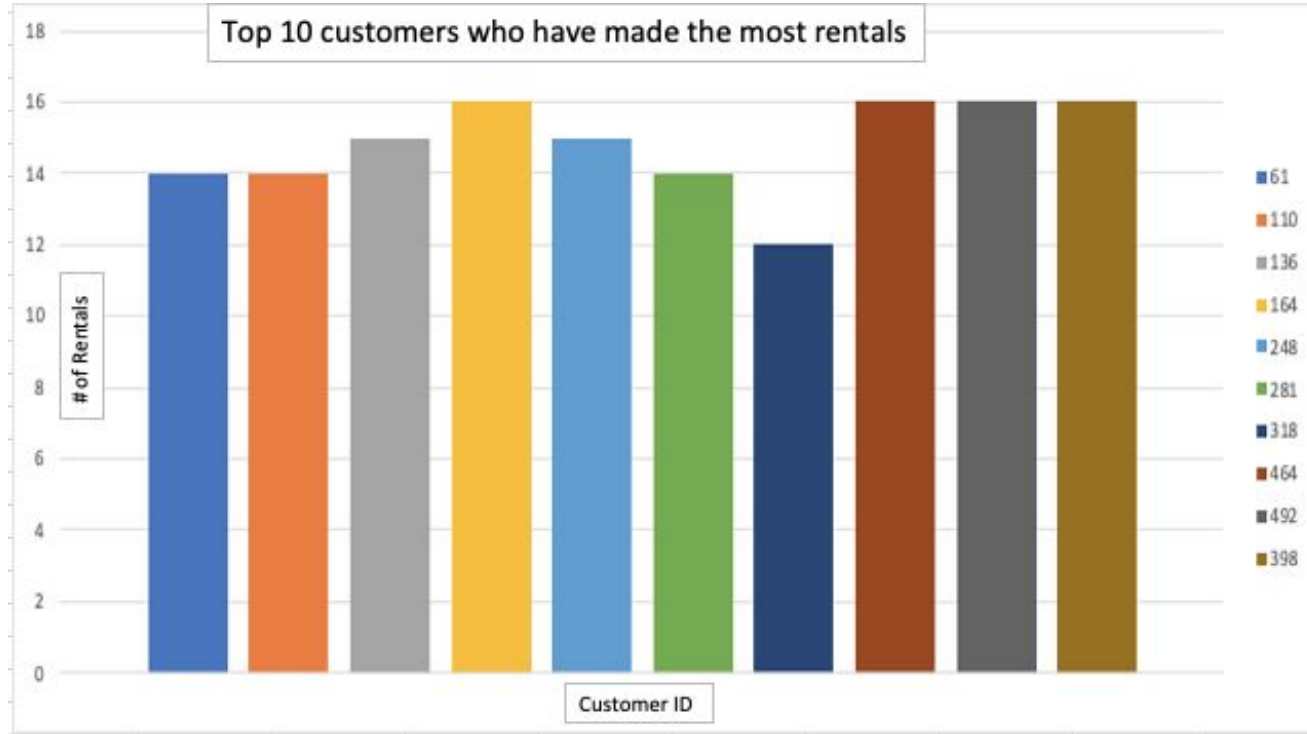

Which staff made the most DVD rentals from May to August 2005?

of DVD rentals staff made (month to month) from May 2005 to August 2005

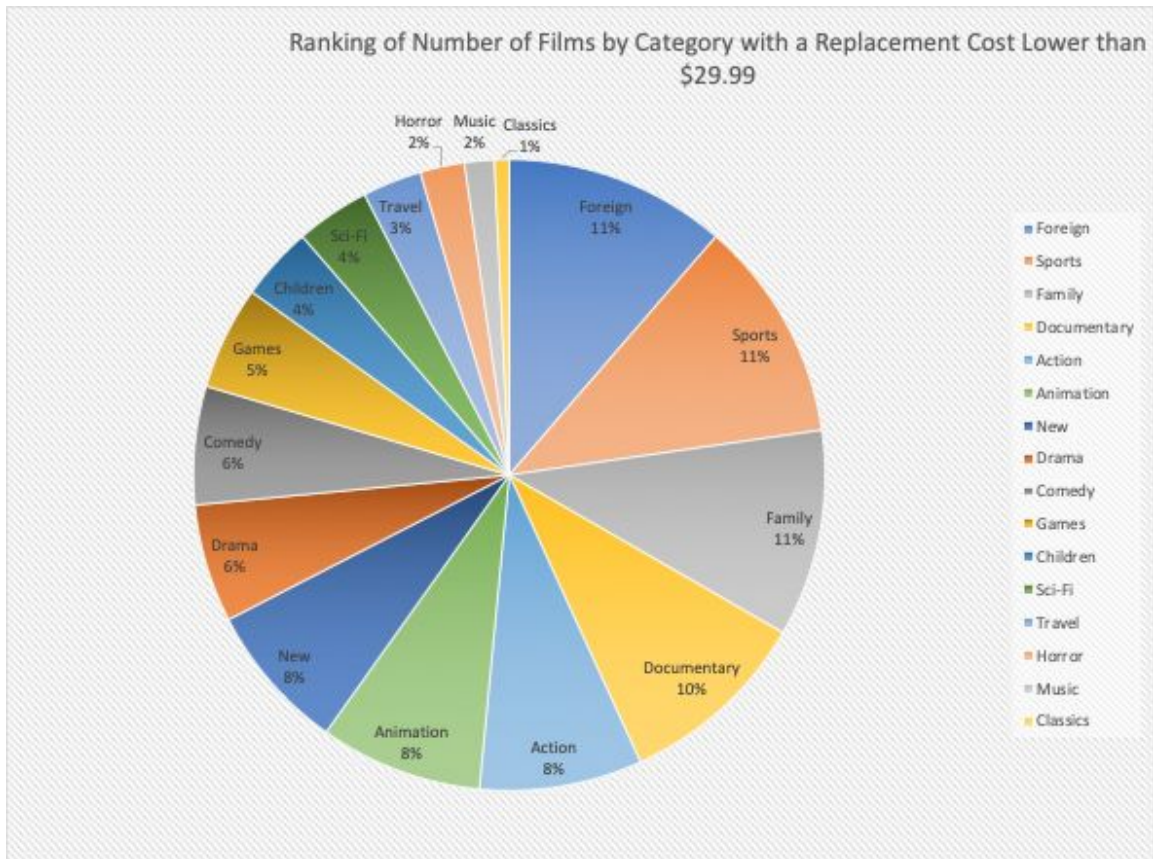

The graph shows the amount of DVD rentals staff made on a month to month basis from May 2005 to August 2005. The two employee names contain the first_name, last_name, a dash, and their username concatenated to have the information consolidated and ready to view for both employees and any viewer of this data. The username was concatenated in case the staff table contained lots of data rows of staff names. Some staff names may be identical, so the username would be a good way to distinguish between staff with similar first and last names.

Who are the top 10 customers who have made the most DVD rentals?

On the left, we have the top 10 customers who have made the most rentals. In the legend, we see that each color corresponds to a unique customer id.
